

Safety is the key to your well-being!

NO CAMERAS
NO WEARABLES
NO PENDANTS

We are looking after you, not at you!

Please be assured that our sensors are just that...sensors! There are NO cameras. Your room and your activities are private at all times. Our sensors let you be yourself, by yourself! But ... you are never alone when it comes to safety.

 **TRANQUILITY** Lifestyle Solutions

Safety is the key to your well-being!

Our focus is your safety! If you experience a fall, our non-invasive sensors will quickly summon the help that you need. Feel secure in the knowledge that our radar sensors are your private emergency system. You maintain the right to be alone, yet you are reassured that help is on hand.

NO CAMERAS
NO WEARABLES
NO PENDANTS

EMBRACE your loved ones!

Our non-intrusive, radar sensors, seek to empower this facility as it strives to deliver your family members the ultimate services in health, welfare and protection.

Our sensors add a modern approach to the notion of care. Via the use of innovative technology, around the clock attention and added protection, our sensors will immediately alert facility staff if something irregular is detected, such as a hard/soft fall, or an unauthorized extended absence from the room.

NO CAMERAS
NO WEARABLES
NO PENDANTS

Privacy and safety are our number one goal. With no cameras, wearables or breaches of confidence. Visit our website at www.tls.global to find out more on how our EMBRACE sensor system works to reassure all concerned.
