## EMBRACE SENSORS

FALL DETECTION  
PRESENCE IN ZONES  
IN AND OUT OF BED  
ROOM OCCUPANCY

Our 'Presence in Zones' sensor monitors and detects senior's activities in their room. It can detect and show where the location of the senior is in a specific area of his/her room. Our Embrace sensors are fully customizable and can alert abnormalities as per our client's needs.

## — Introducing — Embrace. —

Embrace is Our B2B Solution designed and developed for Care-Assisted Facilities and Nursing Homes. An immediate high-priority alert directly notifies your staff, care givers or emergency units to ensure seniors get the help they need when they need it.

Social isolation of residents, workforce solutions and utilization, compliance, and service delivery have seen increased technology adoption. COVID - 19 exposed vulnerabilities in the sector that can be addressed through technology solutions such as ours. Government supported reimbursement has accelerated technology adoption in several key areas such as contactless Fall Detection, Vital Sign Monitoring, Remote Patient Management and Tele-Health.

## The Revolutionary *Intelligent Sensors*

Our 4D radar sensors are reliable, well-tested, intelligent devices that together with our WarmSense technology, perform well under many various conditions. We are able to utilize these sensors to reliably monitor, measure and detect abnormal events in any facility.

Embrace also includes a completely customizable dashboard incorporating interactive features that allow collective communication. Multimedia, materials, policies, and other information can be easily shared across the facility. Embrace allows real-time reporting and a summary of alerts that are delivered through infographic insights. Our round the clock Help Desk is available via Live Chat, Call, or an E-Mail to provide additional support when needed.

## EMBRACE IS AVAILABLE ON MULTIPLE DEVICES!

## PRIVACY IS STRICTLY GUARANTEED
