

Easy Family Communication

Our unique system allows them to communicate easily and effectively with the important people in their life, via our interactive family tree feature.

Around-the-clock Help Desk

It also has an easy access to help desk feature which enables them to address any concerns that may arise with the system, via a call, live chat or an e-mail.

Let them remain proud, remain dignified, and remain strong! Maintain their freedom and their independence but above all, maintain their safety and security!

Now let us liberate them...

They fought to LIBERATE us...

They were proud, they were dignified, they were strong! They fought for freedom, independence and personal safety and security!

Now it is time for us to help them!

At Tranquility Lifestyle Solutions, we are fully supportive of our Veterans privacy, safety, security and autonomy.

We do not place them under surveillance or impede on their rights to be alone.

Responding promptly and efficiently to a fall is key to eliminating associated consequential health issues and it is an important part of LIBERATE'S active duty.

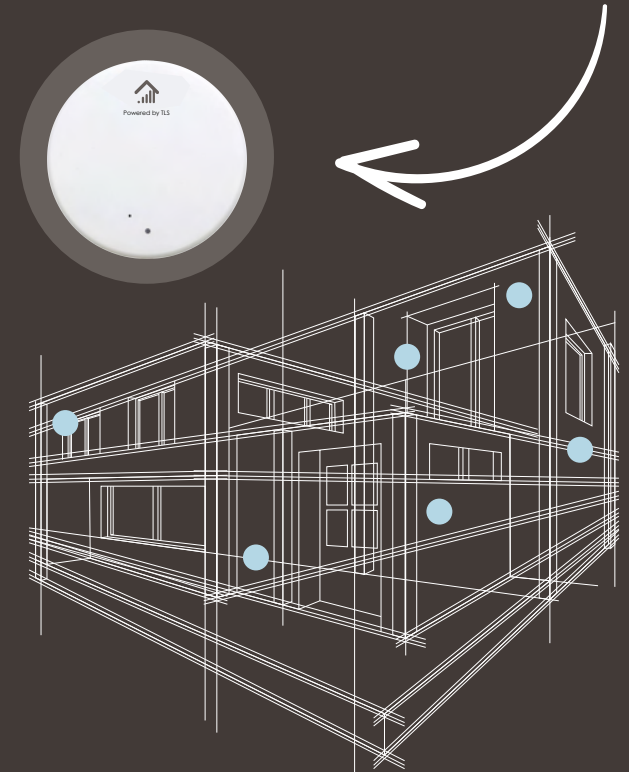

Therefore, we have devised a system that can summon help for them when they need it the most. It is a system that is completely private and one that requires no activation, no cameras and no listening devices or wearables.

PRIVACY IS STRICTLY GUARANTEED

- NO CAMERAS
- NO WEARABLES
- NO PENDANTS

Our 4D radar sensors are strategically placed around the house, empowering their independence without any intrusion, but giving them and their loved ones or care givers peace of mind when it comes to their wellbeing.

They can stay safe and secure! If they experience a fall, an alert will be automatically raised within 90 seconds.
